### Poster Making On Language and Multiculturalism

**Topic: - Poster Making On Language and Multiculturalism**

The Department of education has organized poster making competition on 7<sup>th</sup> of December 2023. In poster making competition students of B.Ed & BBA has participated. Students shared their ideas through the posters that Multilingualism has many benefits, including improved cognitive development, better communication skills, and increased cultural awareness. Students who are bilingual or multilingual have a unique advantage in today's globalized world, where cross-cultural communication is essential. Language plays a crucial role in shaping national identity and unity in multicultural societies.

The key theme of multiculturalism is **diversity within unity**. The emergence of multiculturalism has been strengthened by the trend of international migration since the end of World War II and has coincided with the end of colonialism. The collapse of communism also marked a historical point at which multiculturalism began to emerge as economic migration became increasingly prevalent and many nations were no longer monocultural. The coordinating staff has appreciated the students for their efforts.

At the last Principal Sir, Dr. Jai Bhagwan also shared his views on the topic. The vote of thanks was given by Dr. Joni Hooda, senior faculty, B.Ed. department, also appreciated the audience and participants on successful completion of event.
